

# High End Workshop on “Analysis and Optimization of Sheet Metal Forming Processes” (AOSMFP-2024)

(Under the KARYASHALA Scheme – A SERB Initiative)

February 12-18<sup>th</sup> 2024

(OFFLINE MODE: Fully Funded)

Organised by

Department of Mechanical Engineering, Sardar Vallabhbhai National Institute of Technology, Surat.

Funded by

Science and Engineering Research Board (SERB), Department of Science and Technology (DST), Government of India under Accelerate Vigyan Scheme.

## About the Karyashala:

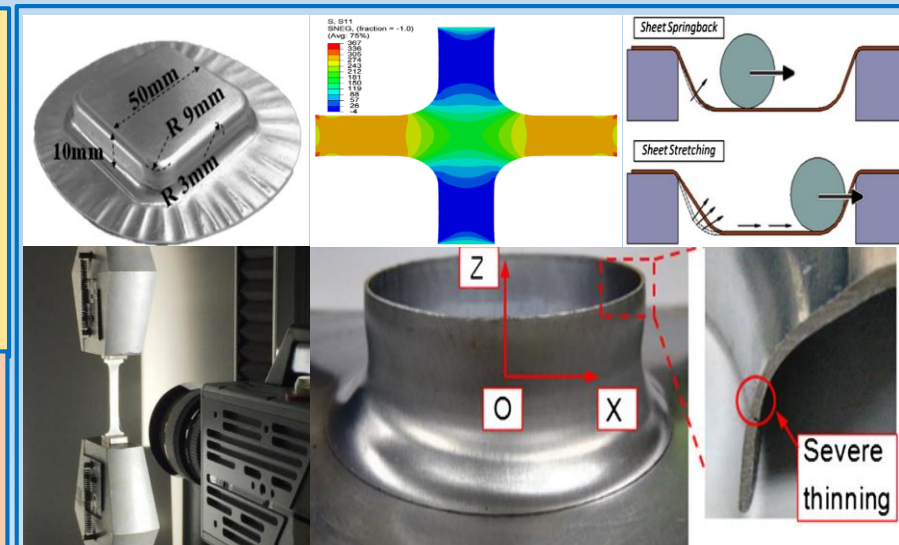

"Accelerate Vigyan" (AV) strives to provide a big push to high-end scientific research and prepare scientific manpower which can venture into research careers and a knowledge-based economy. The main objective of the program is to impart knowledge in the area of advances in Sheet Metal Forming. The program covers the recent trends in the forming processes, such as sheet metal properties, material selection, forming processes, tooling, simulation and modelling, quality control, design considerations, industry applications, future trends, applications in the automotive and aerospace industries, etc.

## About the Institute:

The institute was established by the Parliament of India in the year 1961 as Sardar Vallabhbhai Regional College of Engineering. In the year 2002, it is renamed as Sardar Vallabhbhai National Institute of Technology (SVNIT). SVNIT is one of the public engineering institutions of the country which has contributed many outstanding engineers in India & abroad. The institute currently has six UG programs, nineteen PG programs (in addition to three integrated M.Sc. programs) and a Ph.D. program in all disciplines of engineering and applied sciences.

## Who can attend:

Karyashala is open to Undergraduate final year, postgraduate students and research scholars nationwide. Preference will be given to the students who have an interest and background towards metal forming and deformation.
