

## **Geotechnical Engineering Lab**

- Standard penetration test
- Dynamic cone penetration test
- Plate load test
- Electrical resistivity test
- Seismic refraction test
- Nuclear Probe
- Pressure meter test
- Multi unit consolidation testing device
- Triaxial test system with electronics
- Motorized direct shear testing device
- Compaction test device
- Swell pressure test device
- Universal permeameter
- Static cone penetrometer
- CBR test.
- Cycling Triaxial test

**Point Load Tester**

**Automatic Compaction Apparatus**

**Direct Shear Test Apparatus**

**Pressure Meter**

**Triaxial Compression Test Apparatus**
